OREGON ASYLUM ABUSES.

No branch of the puelle service needs introduced that benefit the insane and reformation so much as the management of the Insane Asylum. With a Such propositions are as foreign to the providing these essentials which are population of less than 400,000, Oregon keeeps nearly 1200 inmates in a so-called ; asylum for the insane-a number out of all proportion to our population.

The abuse begins from the time a person is arrested under the old law which simply requires some one to swear that the person is of unsound mind and unfit to be at large. Then the sheriff arrests and an examination is held before the county judge or a justice of the peace One or more physicians and the district attorney conduct the examination and the sheriff and all the officers get a salary or fees out of the commitment and there is no one to appear for the individual charged with insanity and no one appears to protect the public against the commitment of persons not insane.

The result of this system is that any one of unsound mind and unfit to be at large in the opinion of the above persons, none of whom may be experts, and some of whom may be interested parties-indeed often the whole examining board are interested in sending a person who is a charge on the county to be a charge on the state.

This crude system of commitment has been in force for long years, and the result is the state asylum is filled up with hundreds of persons who are not insanc but who are diseased, victims of alcohol morphine, eigarette fiends, nicotine victims, men and women made insane from patent medicines, malpractice and other vicious habits.

In charge of this system is placed man like Dr. Paine who was put into office with loud pledges of reform, but who has not concerned himself with THE SCHOOL HOUSE PAINTING anything but social and political matters, and in fact has resisted the only efforts to turn daylight on asylum abuses or to secure legislative reforms. He may have recommended reforms, but no one has heard of them and none have been accomplished.

Nepotism, commercialism, shoddy society elaptrap have flourished as never before. Because this paper calls at tention to the utter fraud and failure of an alleged reform administration, a few silly minnypoops in this city cry out that this paper is slandering Dr. Paine. Has it got so in Oregon that extravagance and snobocracy shall run riot in the public service, and go unrebuked merely because a baby-faced grafter caters to the aristocratic fancies of the classes who profit by the abuses plea for a short presidential campaign eral's office at Manila. he perpetuates? The fact is, Dr. Paine ought not be forced upon the people of Oregon another four years, A six month's campaign, from June to

There is so much trouble coming into the world." said Lord Bolingbroke, worth while to be here at all." If a man and a philosopher comes to this what must be the natural conclusion of the thousands of suffering women who undergo untold torture in bring-

ing their babes into the world? Philosophy of this kind is based upon gross ignorance. The fact is, that there is no necessity for the severe pangs undergone by the average woman. If a woman is strong and healthy in a womanly way, motherhood means to her but little suffering. The trouble lies in the fact that the majority of woman affect from meaning the fact that the majority of women suffer from weakness and disease of the distinctly feminine or ganism and are unfitted for motherhood. Several hundred members were present when the roll was called representing among them all sections of the country from Maine to California. The gathering will last three days, the business sessions being devoted to the reading and discussion of papers on the science and art of dentistry and all its collateral branches.

This can always be remedied. Dr. Pierce's Pavorite Prescription is a sure, speedy and secreption. It acts directly on the delicate and important organs concerned, making them healthy, strong, vigorous, virile and elastic. It banishes the indispositions of the period of expectancy and makes baby's advent easy and almost painless. It quickens and vitalizes the feminine organs, and insures a healthy and robust baby. Thousands of women have testified to its marvelous merits. Honest drüggists do not offer substitutes, and urge them upon you as "just as good."
